

ESTHETICS

ORIENTATION

Beginning Your Journey; How You Will Achieve Your Goals

Beginning your journey; Evergreen is a home where you can make your own self-discoveries.

PHASE 01

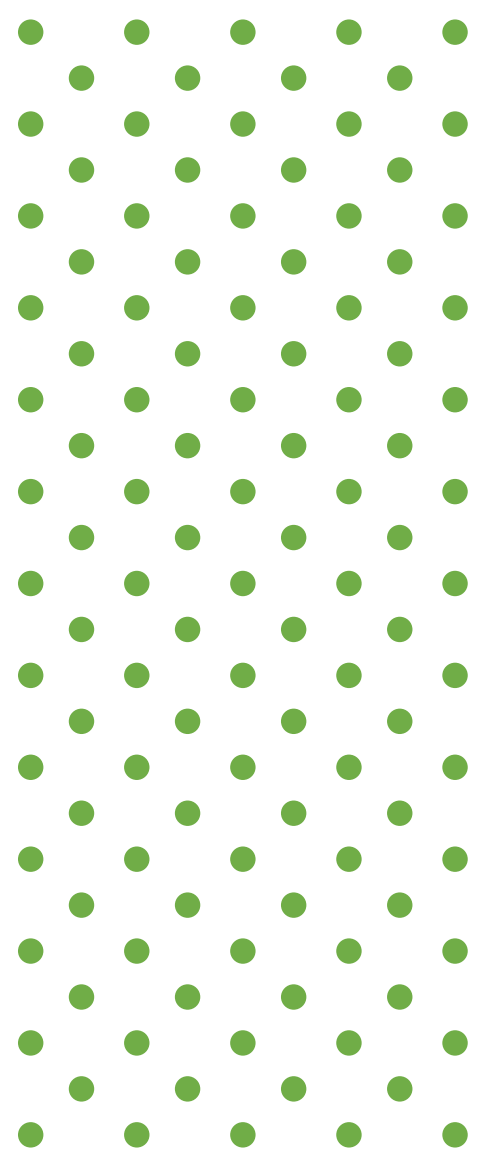

*Building the Foundation...
Where Hands-On Begins*

R.E.P stands for **REFLECT**, **ENGAGE**, and **PERFORM**. This process means our educators will first reflect on what you as a student will be learning, create an activity to engage our students to dig deeper into the theory, then close with making sure that the students can perform what they just learned to ensure our student's understanding of the concept.

Students will learn to identify a client's skin in order to determine skin type and/or condition to best decide a treatment plan.

Performing a professional treatment that is customized to treat the client’s skin type and/or skin condition. You will learn cleansing, exfoliating, moisturizing and massage technique that give a relaxing and youthful looking skin experience.

Learn how to perform a facial through demonstration first.

First starting with a mannequin, learn to use soft wax and hard wax techniques to remove different types of hair on the body and face.

Learning to use soft wax and hard wax techniques to remove different types of hair on the body and face.

Learning various techniques using liquid, powders or creams to contour and highlight a client's best features while diminishing others, then adding a pop of color to the lips to achieve the client's exact desired look.

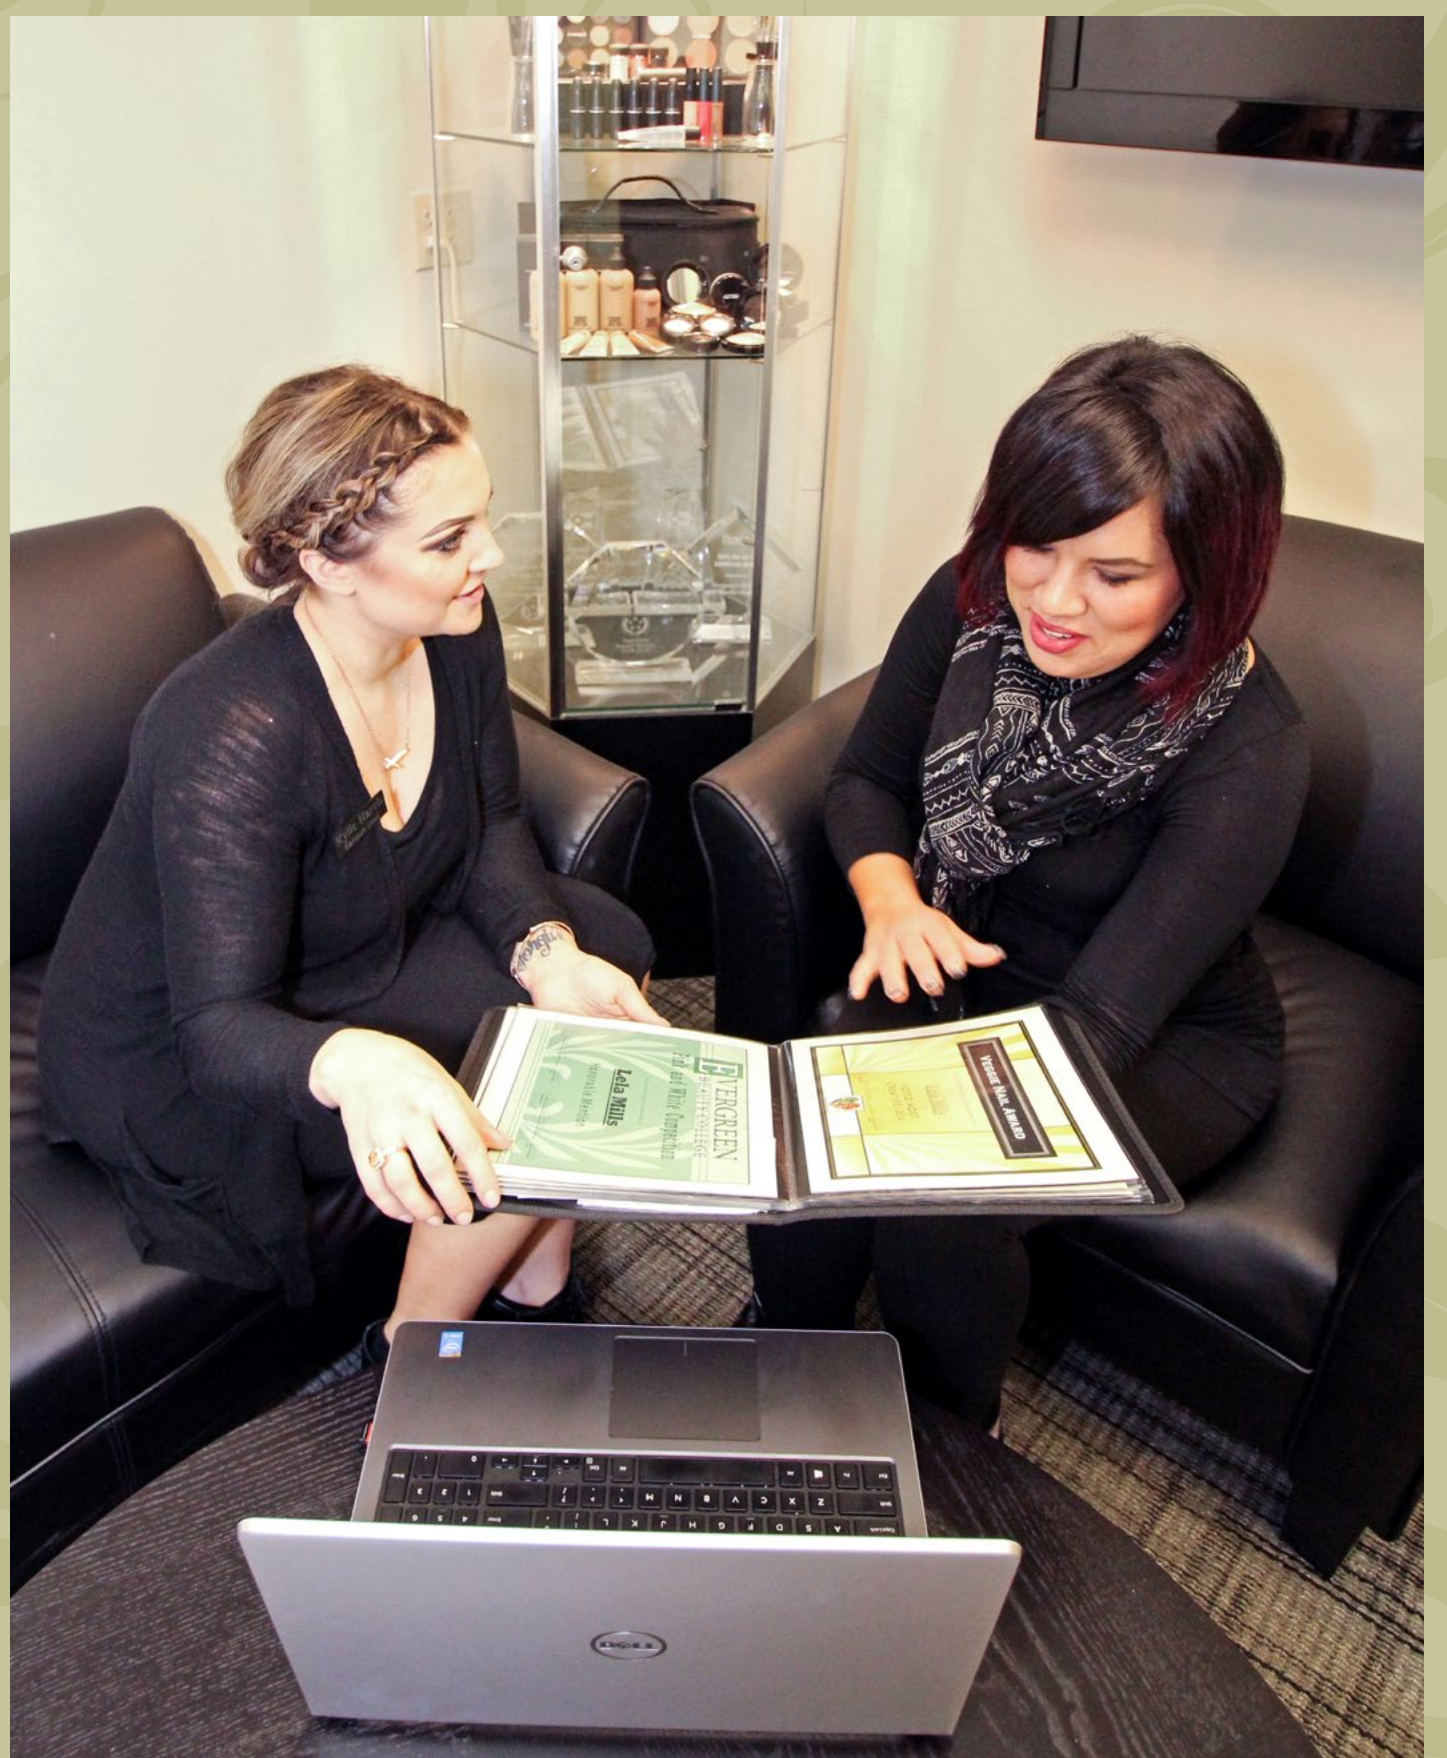

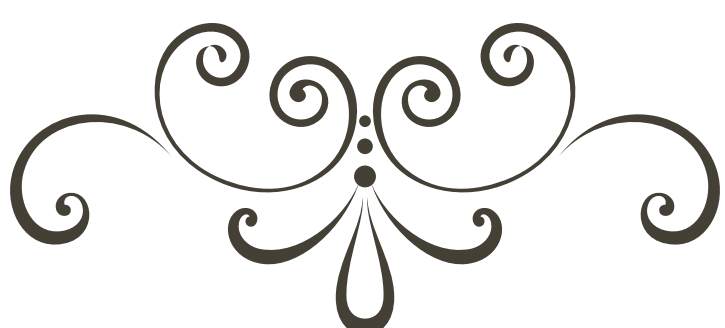

MONTHLY ONE-ON-ONE

Making Sure We Stay On Course For Success Each Step of the Way

An opportunity to check in every month and regroup: this is when your educator will give you a status update where you are in the program and help you plan next month's roadmap. An opportunity to share your successes and struggles so we can adapt for the following month.

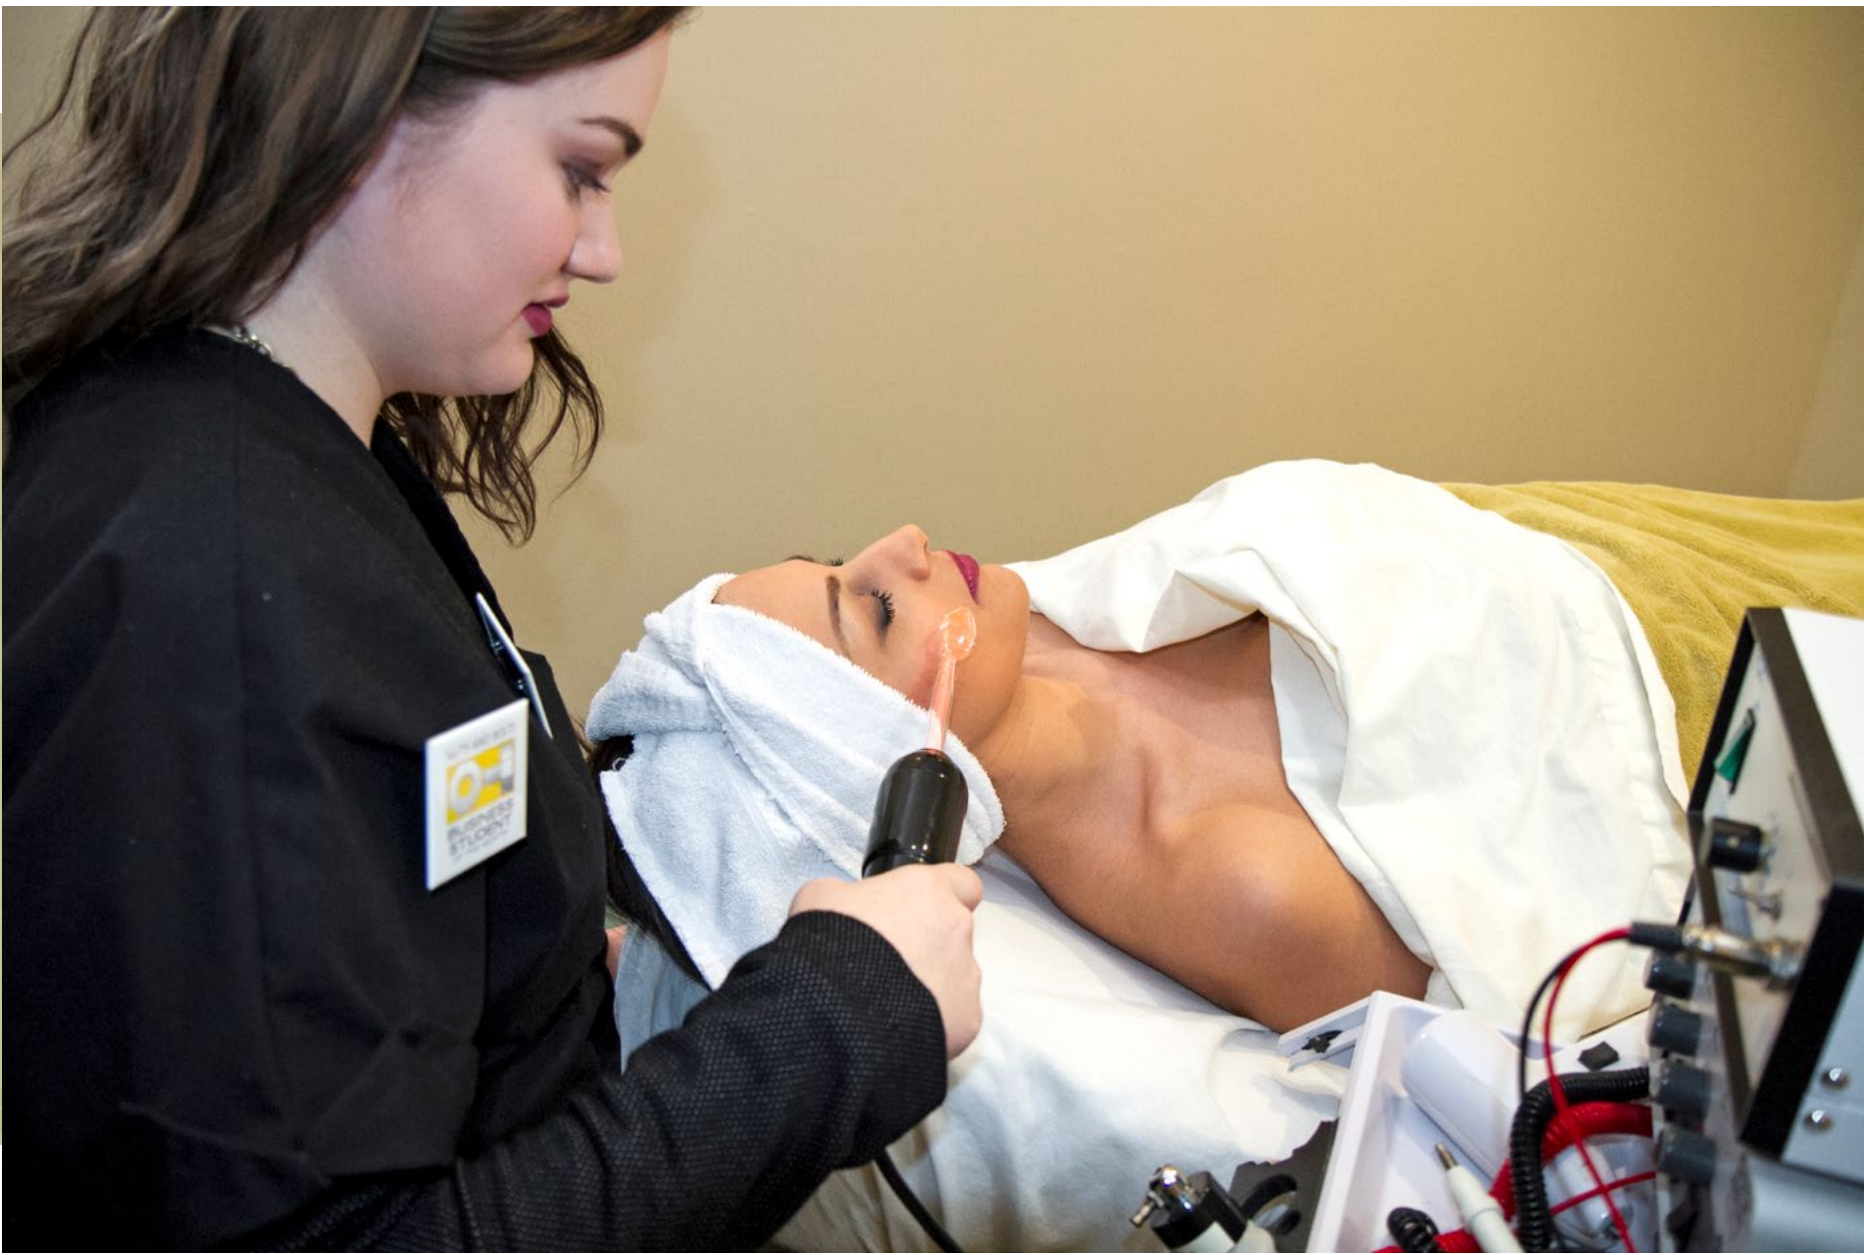

PHASE 02

*Building Advance Techniques
Upon the Foundation*

Individual Eyelash Extensions: A technique in which the esthetician attaches individual lashes to your natural lash for a more dramatic look that can enhance or diminish the shape of the eye as desired by the client. This technique is an up and coming trend.

High Frequency: A technique that uses an alternating electrical current that when applied to a client's skin can create a germicidal effect that can be used on acne type skin.

Galvanic: A process where an electric current is used to help penetrate serums deeper into the skin for optimized effect.

Microdermabrasion: A process in which you use a diamond tip wand and suction in order to remove 20-30% of the top layer of the epidermis skin to reveal brighter, more youthful looking skin.

Product Recommending: 80% of the skin improvement clients will see their skin is what they are using at home. Knowing this the student will recommend a customized home care regimen with the proper skin care products. Product knowledge classes are taught.

Body Treatments: Essentially a facial for your body. Opportunity to learn in a Vichy shower room.

SCHOOL ASSEMBLIES

Beginning Your Journey; How You Will Achieve Your Goals

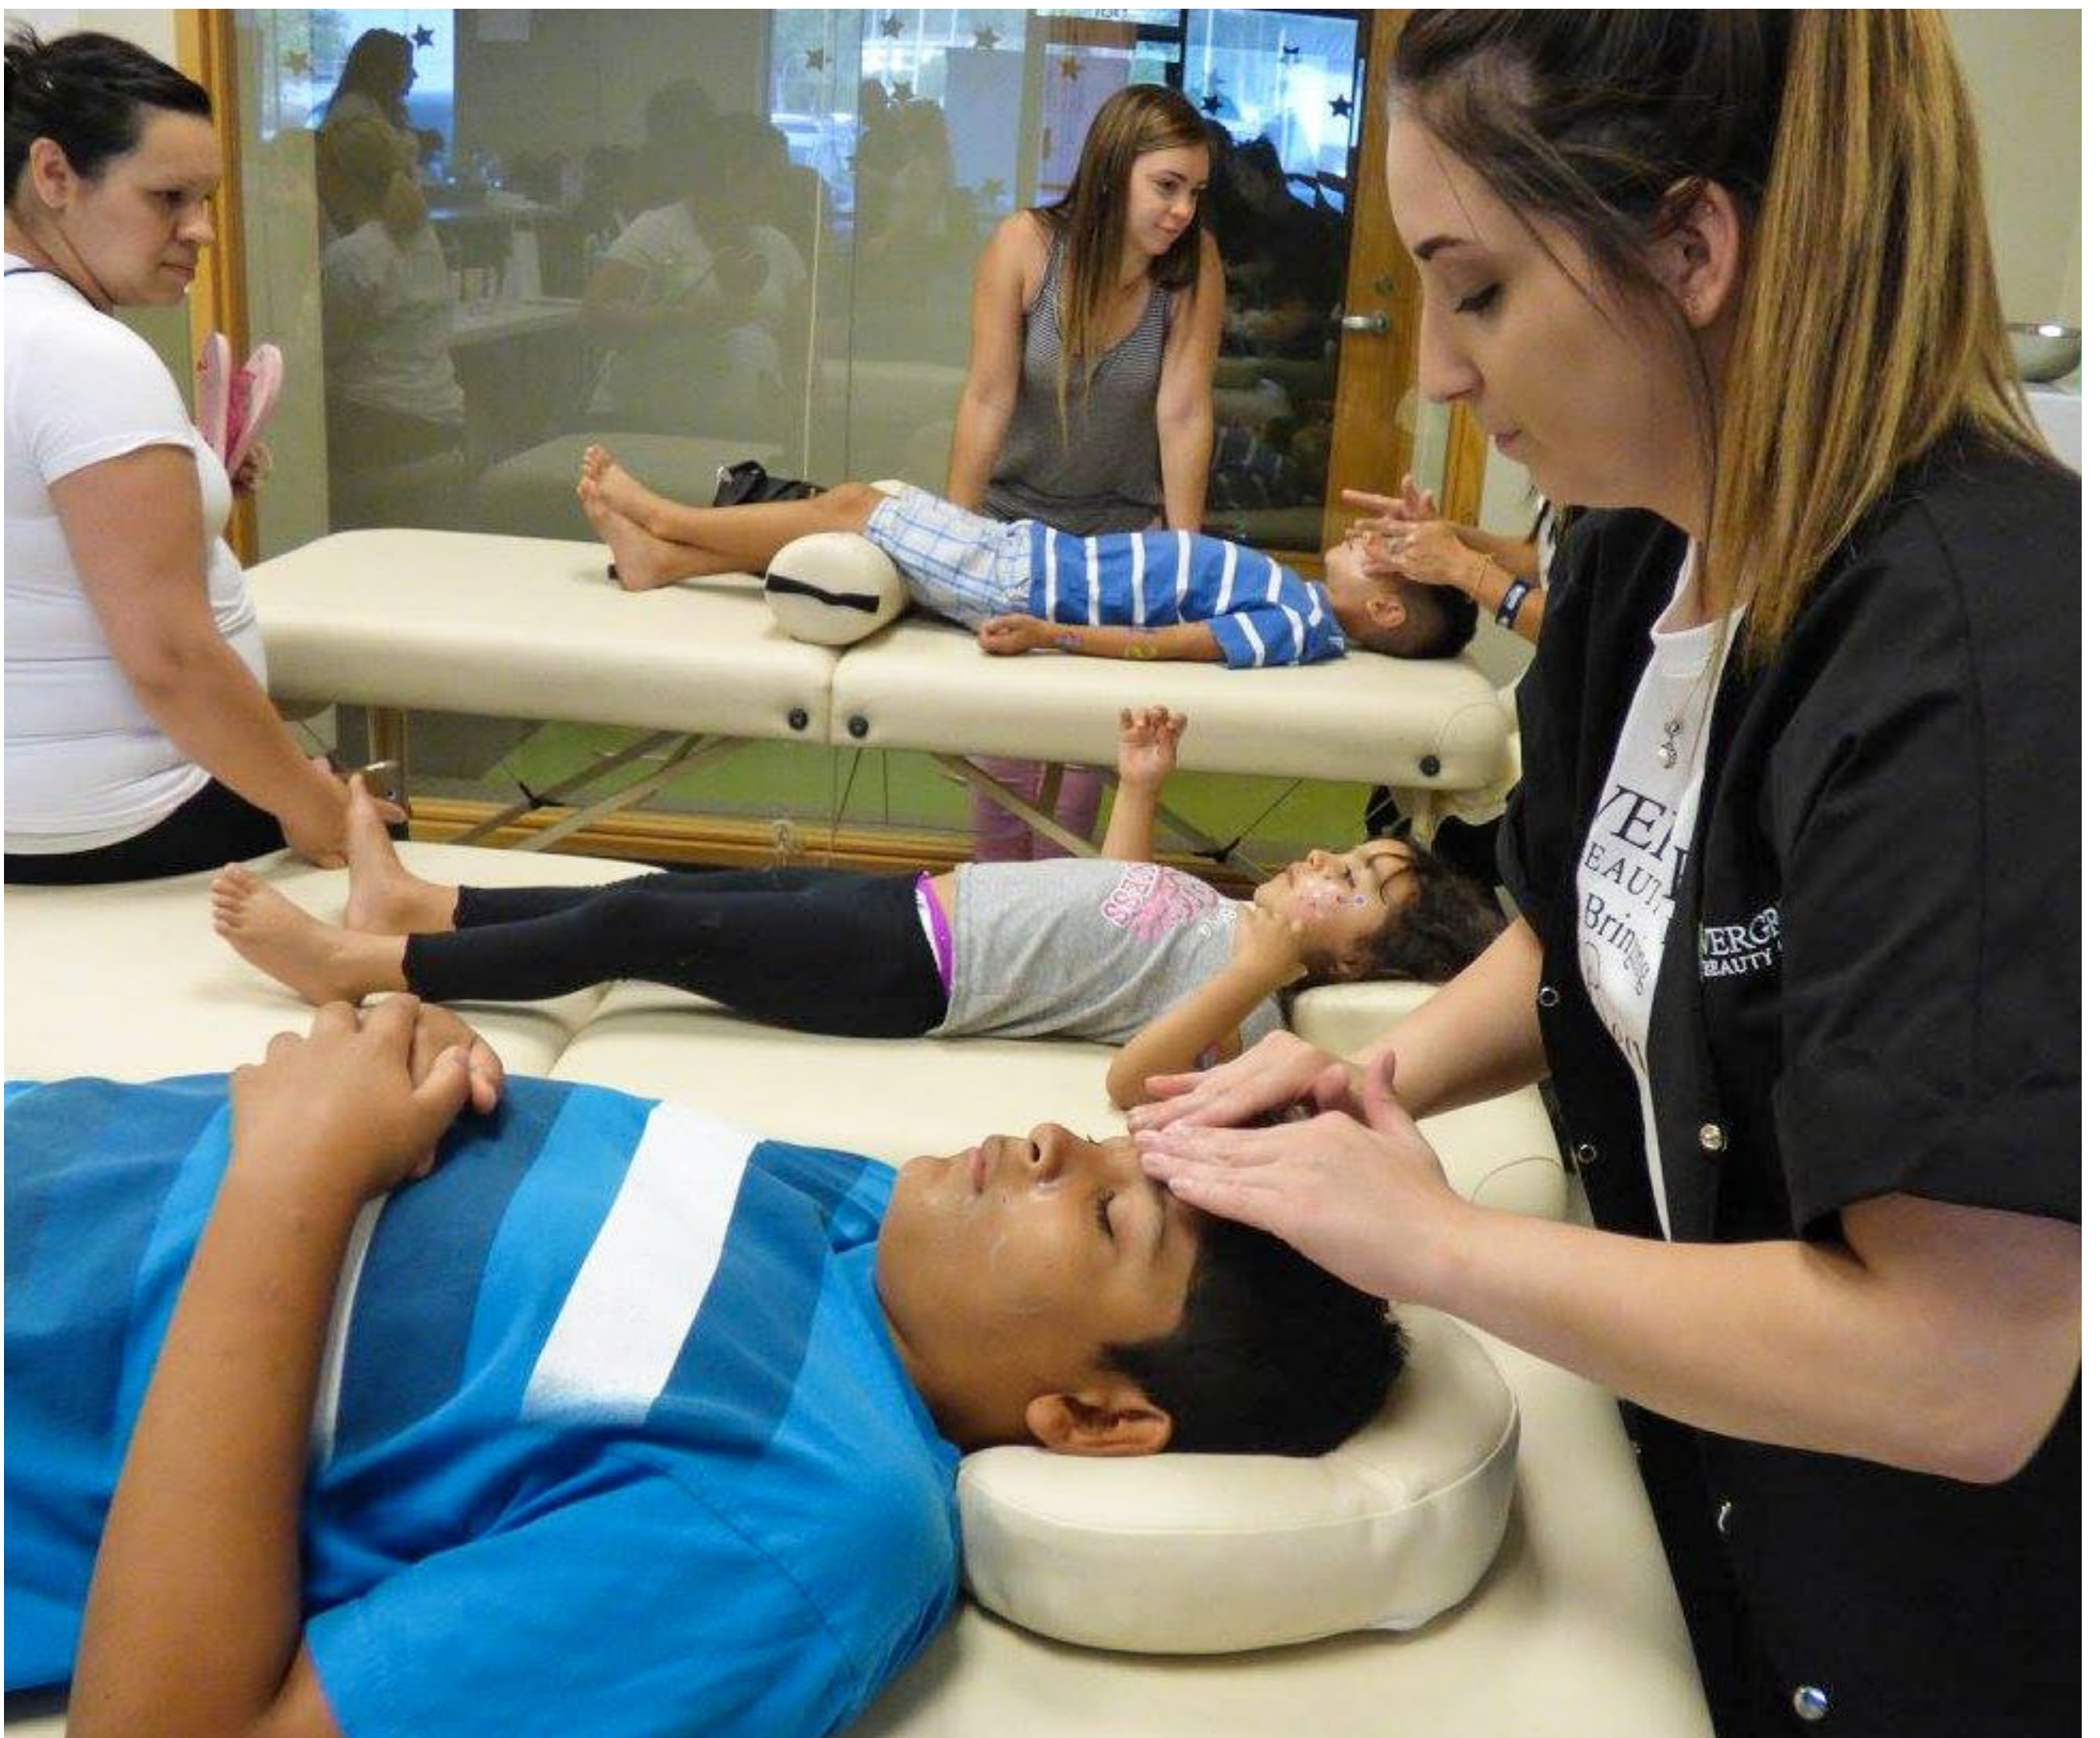

Each month the student body comes together to celebrate individual and class accomplishments as well as fun activities for Personal Development.

GIVING BACK

Events where we have the opportunity to give back to our community

Evergreen students help bring beauty back to school by providing skincare services to students, kids, and families. Students take great pride in giving back to our community through special events designed to help many worthy causes throughout the year. This is a value from the Evergreen Beauty College owners that they want to instill in all of their graduates. As a student you have a number of opportunities to participate in sharing your gifts and talents that you learn in school with the local community.

We host a
“Free Pictures
with Santa”
event for
families.

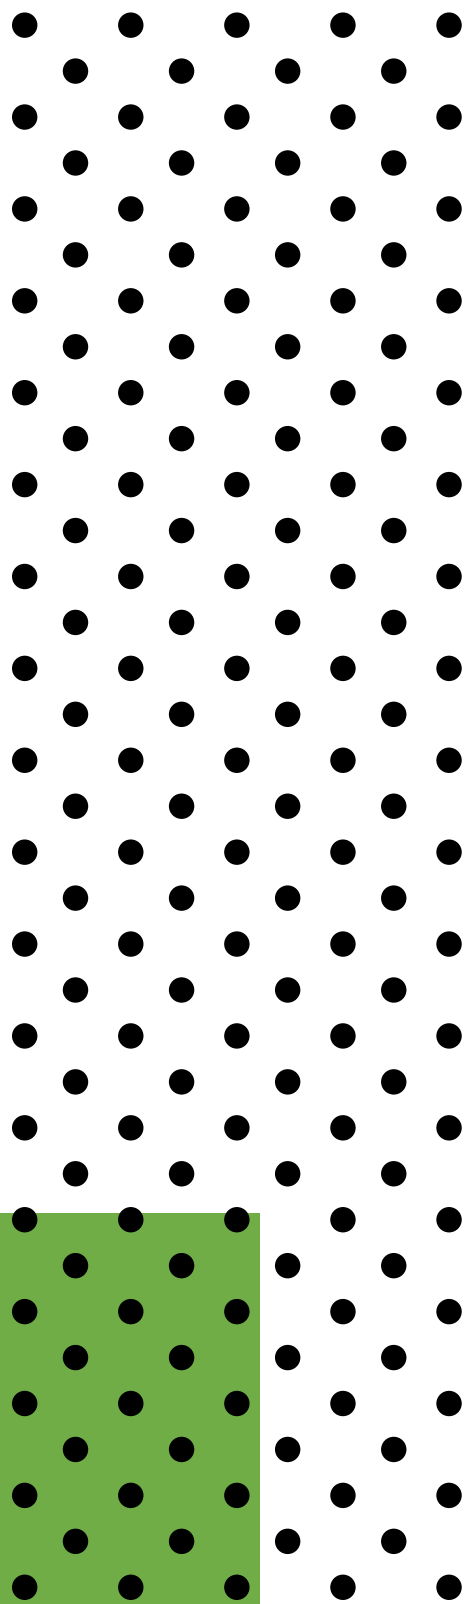

Our students
provide hair
and makeup
services so
they look
great in their
photos!

Evergreen students help Moms and daughters pamper each other for a fun day of relaxation!

Our military appreciation event, **Beauty Salutes You**, sure is a touching one!

Nathan Gonzales shared Evergreen Beauty College's photo.

3 hrs · 21

This man sat in my chair, he told me his life story he was a Marine and was currently homeless and was wanting a haircut to improve his chances of getting back on his feet for a potential job interview! I could not have been more happy or thrilled to help this man who had served our country! The smile on his face says I did my job! I just want to thank Evergreen Beauty College and the Trieu family for giving us a school that gives back to the community! #Thankyouallveterans #veryhumblingexperience

Kenny Bartholomew Thats cool man! You always had a big heart.

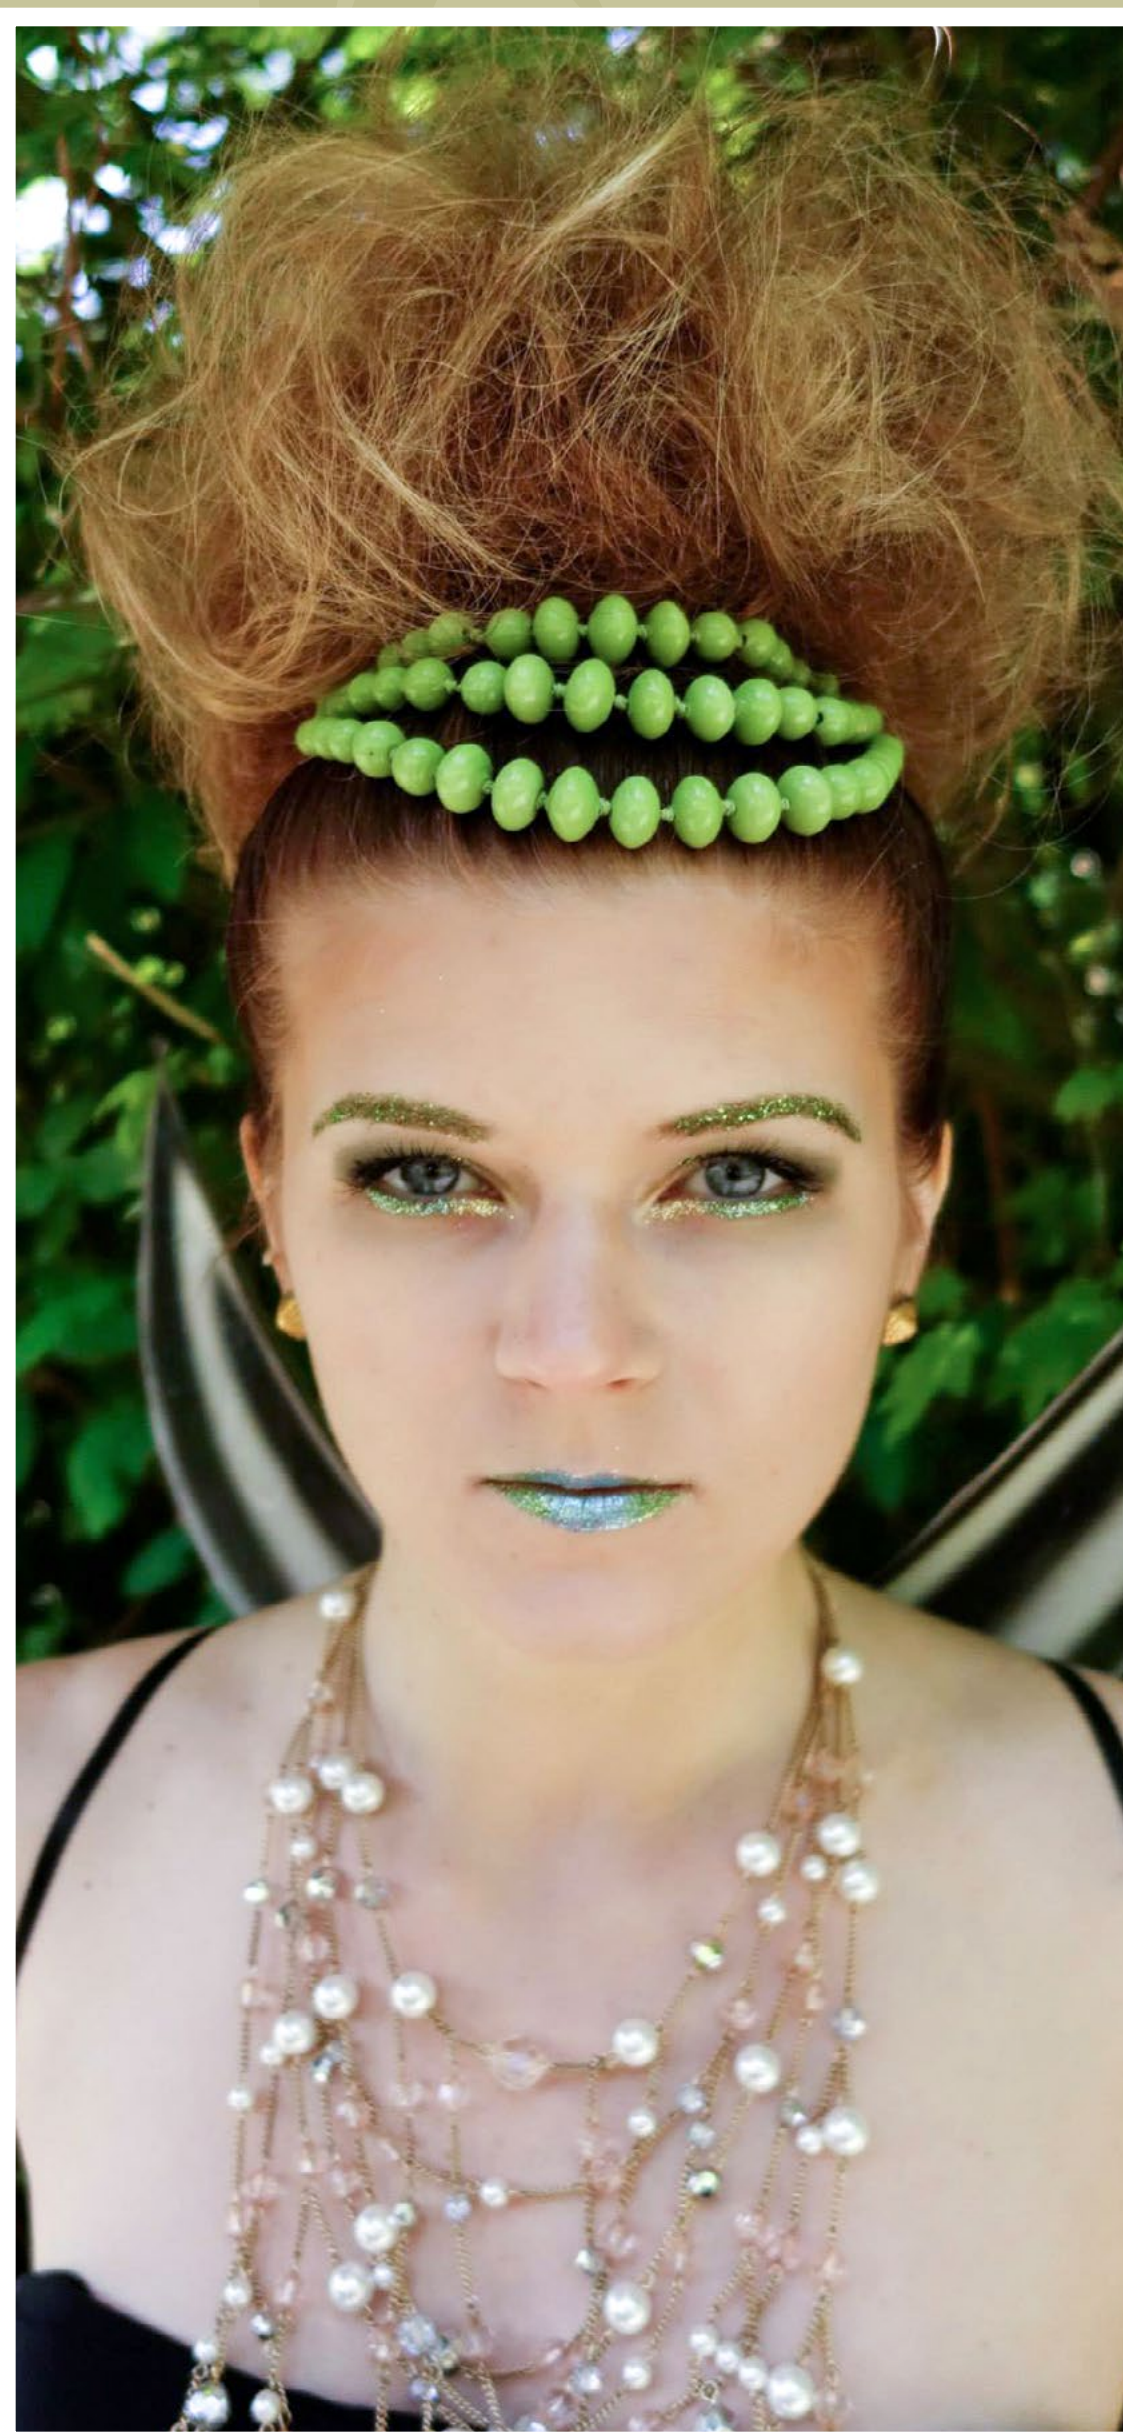

COMPETITIONS & FASHION SHOWS

Opportunities for Students to Unleash Their Creativity

Students are given the opportunity to push beyond their limits through competitions and fashion shows where they can unleash their creativity and artistic side.

PHASE 03

*Preparing for the Profession of
Esthetics After Graduation*

Each student will sit down and have an exit interview with our faculty before graduation. At this time a student will go over their 90-day plan after graduation. Our staff will check to make sure you understand how you will apply for your license, how to make payments to your student loans (if applicable), and double check your tools needed to apply for a job (ex. Resume, portfolio, etc.).

Students develop a photo journal highlighting their creative abilities together with work history and aspirations.

Through our business management program, students can develop “soft skills” dealing with clients to be able to attract and retain future clients.

Students are prepared for their written and practical licensing exam.

Many of our students spend a portion of their training at an externship in local spas prior to graduating to discover the work environment of a spa.

To celebrate your last hour of school, your peers and staff clap you out in your final walk out our doors!

➤ PHASE 04

*After Life
& Continued Support*

We love inviting real, successful professionals working in the industry into our classes as guest speakers so they can share their knowledge with our students. Guest speakers provide alternative classes such as sugaring, how to get a promotion, threading and more!

Our owners visit our graduates' grand openings as they open their spa.

Graduation: The crowning achievement celebrating your accomplishment.

You will have the opportunity to thank all your support, family and friends that helped you through this journey.

... AND YOUR LIFE AS A PROFESSIONAL BEGINS

Take the first step and give us a call!

Our Admissions Counselors are able to share in your excitement for your career.

Call us at [\(425\) 336-5120](tel:4253365120) or [schedule a tour](#) online.
