

EVERGREEN BEAUTY COLLEGE

DRUG FREE SCHOOL POLICY

Evergreen Beauty College believes that it is very important to provide a safe environment for all of its students and employees. Substance abuse, while at work, school or otherwise, seriously endangers the safety of students and Team Members, as well as the general public, and creates a variety of problems including increased theft, decreased morale, decreased productivity, and a decline in the quality of services provided. It is also our Policy to prevent the use and/or presence of these substances in the school.

The Evergreen Beauty College will strive to provide an environment conducive to making conscientious and healthy decisions when students are faced with difficult choices associated with the use of legal and illegal drugs.

It is a violation of school policy for any employee or student to:

- Use illegal drugs or misuse prescription drugs;
- Misuse alcohol;
- Possess, trade, manufacture, distribute, dispense, buy or offer for sale alcohol, illegal and/or prescription drugs while on duty, during break periods, or on school property;
- Arrive or return to school intoxicated from use of illegal drugs, misused prescription drugs or alcohol;
- Engage in the use of illegal drugs, misuse of prescription drugs or alcohol during school hours or while on school property (including parking lots);
- Use prescription drugs or non-prescription drugs that may affect the safety of the student or fellow students, and members of the public;

Any employee or student who is taking any prescription or non-prescription drug which might impair safety, performance, or any motor functions must advise his/her Instructor or the Campus Director before providing services under such medication.

Employees and students are individually responsible for being aware of applicable laws, regulations, ordinances, and the College's policy for complying with them. Evergreen Beauty College will assist in that endeavor by providing current information on an ongoing basis to all students and employees.

Drug & Alcohol Health Risks

Alcohol: People drink to socialize, celebrate, and relax. Alcohol often has a strong effect on people—and throughout history, people have struggled to understand and manage alcohol's power. Why does alcohol cause people to act and feel differently? How much is too much? Why do some people become addicted while others do not?

Alcohol's effects vary from person to person, depending on a variety of factors, including:

- How much you drink
- How often you drink
- Your age
- Your health status
- Your family history

While drinking alcohol is itself not necessarily a problem—drinking too much can cause a range of consequences, and increase your risk for a variety of problems.

Cocaine: Cocaine is a powerfully addictive stimulant drug. Cocaine increases levels of the natural chemical messenger *dopamine* in brain circuits controlling pleasure and movement. This flood of dopamine ultimately disrupts normal brain communication and causes cocaine's high.

Short-term effects include constricted blood vessels, nausea, faster heartbeat, extreme happiness and energy, irritability and paranoia. Long-term effects include nosebleeds, severe bowel decay, higher risk of contracting HIV, hepatitis C, and other bloodborne diseases, malnourishment, restlessness, and severe paranoia with auditory hallucinations. A person can overdose on cocaine, which can lead to death.

Marijuana: Marijuana contains the mind-altering chemical THC and other related compounds. THC over-activates certain brain cell receptors, resulting in effects such as altered senses, changes in mood, impaired body movement, difficulty with thinking and problem-solving, and impaired memory and learning. Marijuana use can have a wide range of health effects, including hallucinations and paranoia, breathing problems, and possible harm to a fetus's brain in pregnant women. Marijuana use can cause some very uncomfortable side effects, such as anxiety and paranoia and, in rare cases, extreme psychotic reactions. Marijuana use can lead to a substance use disorder, which can develop into an addiction in severe cases.

Hallucinogens and Dissociative Drugs: Hallucinogens and dissociative drugs—which have street names like acid, angel dust, and vitamin K—distort the way a user perceives time, motion, colors, sounds, and self. These drugs can disrupt a person's ability to think and communicate rationally, or even to recognize reality, sometimes resulting in bizarre or dangerous behavior. Hallucinogens such as LSD, psilocybin, peyote, DMT, and ayahuasca cause emotions to swing wildly and real-world sensations to appear unreal, sometimes frightening. Dissociative drugs like PCP, ketamine, dextromethorphan, and *Salvia divinorum* may make a user feel out of control and disconnected from their body and environment. In addition to their short-term effects on perception and mood, hallucinogenic drugs are associated with psychotic-like episodes that can occur long after a person has taken the drug, and dissociative drugs can cause respiratory depression, heart rate abnormalities, and a withdrawal syndrome.

Methamphetamine: The abuse of methamphetamine—a potent and highly addictive stimulant—remains an extremely serious problem in the United States. The consequences of methamphetamine abuse are terrible for the individual—psychologically, medically, and socially. Abusing the drug can cause memory loss, aggression, psychotic behavior, damage to the cardiovascular system, malnutrition, and severe dental problems. Methamphetamine abuse has also been shown to contribute to increased transmission of infectious diseases, such as hepatitis and HIV/AIDS.

Reasonable Search:

To ensure that illegal drugs and alcohol do not enter or affect the school, Evergreen Beauty College reserves the right to search all vehicles, containers, lockers, or other items on school property in furtherance of this Policy. Individuals may be requested to display

personal property for visual inspection upon the College's request. Searches will be conducted only where Evergreen Beauty College has reason to believe that the student has violated the College's Policy. Failure to consent to a search or display of personal property for visual inspection will be grounds for discipline, up to and including termination from the program or denial of access to school premises. Searches of a student's personal property will take place only in the student's presence. All searches under this Policy will occur with the utmost discretion and consideration for the student involved. Individuals may be required to empty their pockets, but under no circumstances will a student be required to remove articles of clothing to be physically searched.

Actions Required of Employees or Students:

If an employee or student suspects that she/he has a substance abuse problem, the employee or student is expected to contact a counselor acceptable to the Evergreen Beauty College. Any employee or student who voluntarily seeks assistance or rehabilitation for drug or alcohol misuse prior to being subject to testing under this policy shall not be subject to disciplinary action for violation of the Policy, as long as the employee or student continues to participate satisfactorily in the counseling or rehabilitation program. The employee or student must obtain a work release from the counselor or treatment provider before returning to work or school.

Any investigation by law enforcement or conviction for Controlled Substance or Alcohol activity may be cause for dismissal from employment or school. Failure to report any conviction for illegal drug use or alcohol misuse to Evergreen Beauty College may result in immediate termination from employment or school attendance.

The use of prescription or over the counter medications that may impair an employee or student's ability to safely or adequately perform his/her duties must be reported to the employee's or student's supervisor. Some medication use may require reassignment or temporary leave of absence without pay. Employees and students must take all medication as directed on the medication label and must heed any warnings listed on the medication's label.

Disciplinary Action:

A prospective employee/applicant who has a positive test or "refusal to test" may not be considered for employment.

An employee who violates this Evergreen Beauty College policy may be immediately removed from duty and subject to disciplinary action up to and including termination.

A prospective student/applicant who has a positive test or "refusal to test" may not be further considered for enrollment to Evergreen Beauty College.

Any current student who has a positive test may be required to reimburse Evergreen Beauty College for the cost of the test.

Students who violate this policy may be put on permanent probation and are subject to monthly follow-up drug and/or alcohol tests, at the student's expense.

A student's First Violation may result in immediate removal from class attendance, until the student can pass a "return to duty" drug and/or alcohol test, at the student's expense.

A student's Second Violation may result in immediate termination from Evergreen Beauty College. A student may apply for re-entry to school after they have been evaluated by a substance abuse counselor acceptable to Evergreen Beauty College and can obtain a written release from the counselor or treatment provider. The release should document the student's compliance and participation with all counseling or treatments recommended by the substance abuse counselor. The student must then pass a return to duty drug and/or alcohol test at student expense.

A student's Third Violation may result in immediate termination from school and he/she will not be eligible for re-entry.

Employees and students who violate this policy by illegally selling, manufacturing or distributing controlled substances or alcohol may be terminated from employment or enrollment.

Drug Testing Circumstances:

Pre-employment or Pre-enrollment Procedures: Prospective employees or students may be asked to submit to a drug test at Evergreen Beauty College.

Employment or acceptance/enrollment at Evergreen Beauty College will be offered to those who successfully pass the pre-employment or pre-enrollment drug test. Refusal to consent to a pre-employment or pre-enrollment drug test, or Positive, Adulterated or Substituted test results may terminate any action towards permanent employment or enrollment as a student.

Post-Accident Tests: Evergreen Beauty College may require Drug and/or Alcohol testing of any employee or student involved in an on-the-job or in-school accident/injury where the following occurs:

- A fatality,
- An injury to an employee, student, client or other individual that requires medical attention away from the school or accident scene, or
- Damage to school property that exceeds \$500.00.

Post-accident testing may be required of any individual whose actions or inaction could have reasonably contributed to the cause of the accident.

Reasonable Suspicion: Reasonable suspicion Drug and/or Alcohol testing may be done in cases where there is a reasonable belief by a supervisor that an employee or student may be using a Controlled Substance, using alcohol while at work, or reporting to work under the influence of Alcohol or a Controlled substance, using prescription drugs illegally or any other violation of school policy. Reasonable suspicion or For-Cause tests may be required when there is any of the following:

1. Observable phenomena (actual use, possession, odors, etc.);
2. Abnormal behavior or physical characteristics; or
3. A drug-related investigation, arrest or conviction or an investigation of theft.

Random Testing: unannounced random Drug and/or Alcohol Testing may be conducted on all employees or students and will be administrated by a third-party administrator. Selection for random testing will be computer generated. All employees/students will have an equal chance of selection in each selection period.

Unit or Blanket Testing: Drug and/or Alcohol testing of all Company employees/students or all employees/students in one location or job category may conducted at the discretion of Evergreen Beauty College.

Return to Duty Testing: The first Drug and/or Alcohol test after a policy violation, evaluation by a counselor, acceptable to Evergreen Beauty College, and after the counselor has determined that the employee or student has successfully complied with prescribed education and/or treatment. The test result must be negative before he/she can return to duty or attend class.

Follow-up Testing: After a violation of this policy and return to duty, an employee or student is subject to unannounced Drug and/or Alcohol testing, the schedule of follow-up testing will be determined by the EAP/counselor or Evergreen Beauty College.

Refusal of Testing: A refusal of testing will be treated as a positive test.

Overview of Federal Controlled Substance Penalties

The Controlled Substances Act (CSA) places all substances which were in some manner regulated under existing federal law into one of five schedules. This placement is based upon the substance's medical use, potential for abuse, and safety or dependence liability. The Act also provides a mechanism for substances to be controlled (added to or transferred between schedules) or decontrolled (removed from control). The procedure for these actions is found in Section 201 of the Act (21U.S.C. §811).

The CSA provides penalties for unlawful manufacturing, distribution, and dispensing of controlled substances. The penalties are basically determined by the schedule of the drug or other substance, and sometimes are specified by drug name, as in the case of marijuana. As the statute has been amended since its initial passage in 1970, the penalties have been altered by Congress. The following charts are an overview of the penalties for trafficking or unlawful distribution of controlled substances.

Notice of Federal Student Aid (FSA) Penalties for Drug Law Violations:

The Higher Education Opportunity Act requires institutions to provide to every student upon enrollment a separate, clear and conspicuous written notice with information on the penalties associated with drug-related offenses under existing section 484(r) of the HEA. It

also requires an institution to provide a timely notice to each student who has lost eligibility for any grant, loan, or work-study assistance as a result of penalties under 484(r)(1) of the HEA a separate clear, and conspicuous written notice that notifies the student of the loss of eligibility and advises the student of the ways in which to regain eligibility under section 484(r)(2) of the HEA. Students are hereby notified that federal guidelines mandate that a federal or state drug conviction can disqualify a student for Federal Student Aid funds. Convictions only count if they were for an offense that occurred during a period of enrollment for which the student was receiving Title IV aid—they do not count if the offense was not during such a period. Also, a conviction that was reversed, set aside, or removed from the student's record does not count, nor does one received when he/she was a juvenile, unless the student was tried as an adult.

The Higher Education Act of 1965 as amended (HEA) suspends aid eligibility for students who have been convicted under federal or state law of the sale or possession of drugs, if the offense occurred during a period of enrollment for which the student was receiving federal student aid (grants, loans, and/or work-study). If you have a conviction(s) for these offenses, call the Federal Student Aid Information Center at 1-800-4-FED-AID (1-800-433-3243) to complete the "Student Aid Eligibility Worksheet" to find out how this law applies to you.

If you have lost federal student aid eligibility due to a drug conviction, you can regain eligibility if you pass two unannounced drug tests conducted by a drug rehabilitation program that complies with criteria established by the U.S. Department of Education.

By completing the FAFSA, you may be eligible for nonfederal aid from states and private institutions even if ineligible for Federal Aid. If you regain eligibility during the award year, notify your financial aid administrator immediately. If you are convicted of a drug-related offense after you submit the FAFSA, you might lose eligibility for federal student aid, and you may be liable for returning any financial aid you received during a period of ineligibility.
