WHY IS

TOURING A SCHOOL IS SO IMPORTANT

If you are interested in attending college or school at any time in your life, then it is important to make an educated decision when you choose where to go.

A tour is the best way to get to know a school and what they can offer you. Scheduling the initial tour is the first and most critical step.

Meet the instructors, staff, and current students engaging in daily activities, tour the facilities and explore the campus' local amenities. Virtual and in-person tours can help you envision yourself as a student.

- ✓ **SEE** what the institution can offer. See your investment in education working for you.
- ✓ **TALK** to staff and current students in person to get feedback and reviews. Are you going to be learning what you want and expect? How do they feel during their program?
- ✓ **BE** there. Make sure you are comfortable, happy, and welcomed in the learning environment. The tour is the most common place where students decide if the school will be the right fit. Follow your intuition.

We understand that committing to a tour is a big step but a step in the right direction. Many prospective students feel daunted by big life changes, financial issues, or many other circumstances.

We are here to tell you it's okay!

If you love what you are going to school for, then your passion will overcome your doubts. If you are willing to put in the time and hard work, then the perfect school and setting can help you overcome doubts and roadblocks. At Evergreen, our admissions and financial aid teams are here to help you plan, get assistance, and achieve your dreams. A tour is essential for creating a roadmap for your future.

“Trust your instinct. If you love the industry, everything else will fall into place. You will experience what you love every day.”

— Joe Trieu
President, Evergreen Beauty College

HOW TO SCHEDULE A TOUR

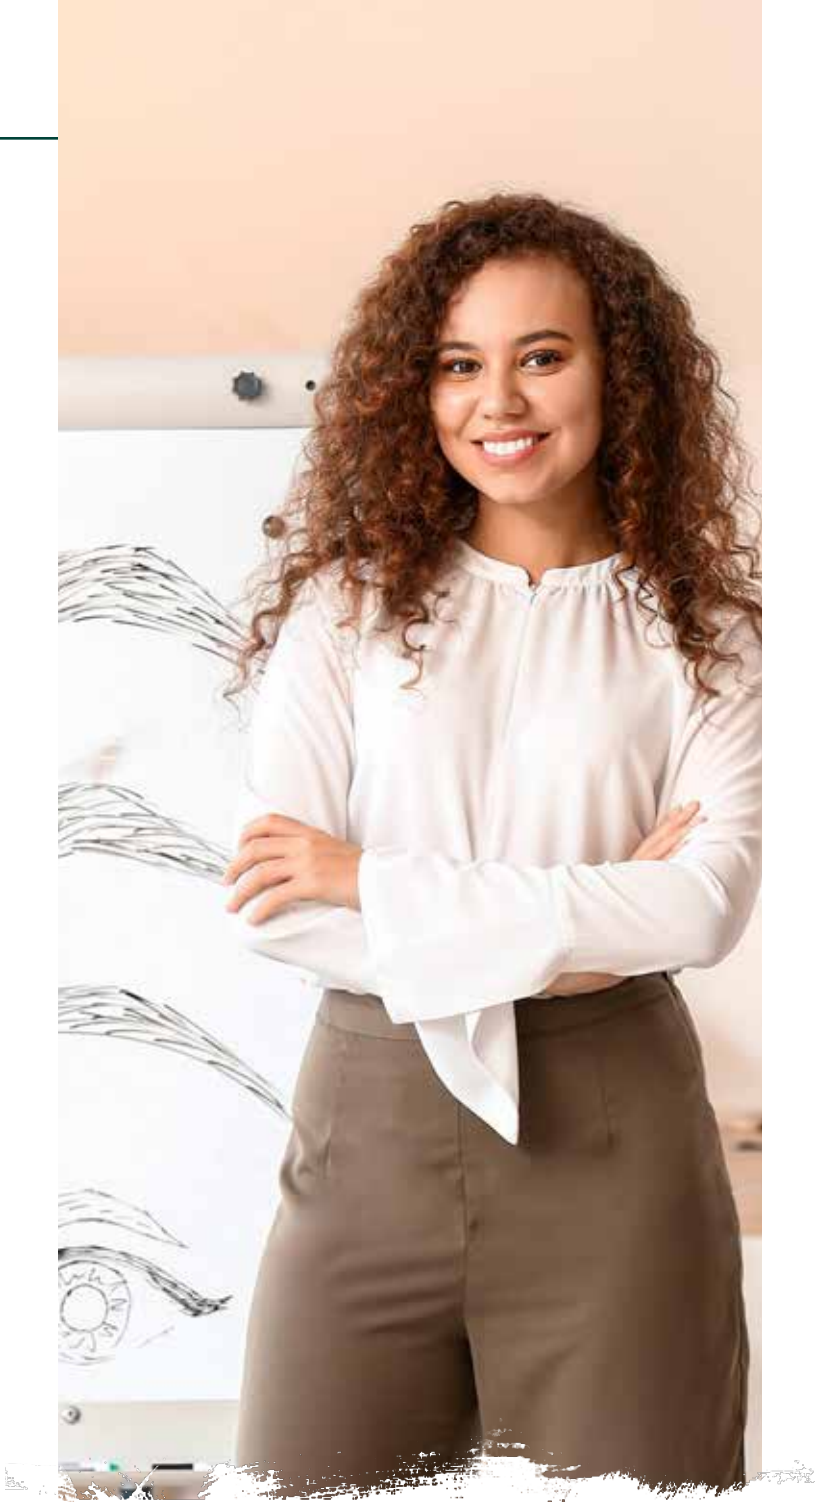

During a tour, you will meet teachers, staff, and students.

You will also review financial assistance eligibility and process, the curriculum, the culture, and scheduling options.

Because all schools are different, the touring process will vary for each location.

You can schedule a tour with Evergreen in three ways:

- ✓ Request information using our website or calling your closest location.
- ✓ Visit one of our locations.
- ✓ Contact our admissions office. Our admissions team can give you more information on the phone, and they can set you up for a tour!

QUICK TIP:

We suggest you bring a family member or friend with you! Touring the campus with a supportive person can help you make the right decision and put things into perspective.

They can also serve as another set of ears!

WHAT TO BRING TO A TOUR

All you need to bring to a tour with Evergreen is yourself.

We recommend a friend or family member and a notebook. You don't have to decide on the day of your tour. Our admissions team is here to guide you and fill you in on all the campus resources. Tours are not mandatory; however, we encourage you to immerse yourself into the campus life before taking the plunge and enrolling at Evergreen Beauty College.

You can come back days or even weeks later to start your enrollment process. Although, the sooner you enroll, the sooner you can step into a more promising future.

Here are some additional questions to ask:

- What makes your school different?

- What is the goal of the school?
- What career goals can you help me with?

- Will I be compatible with the educators?
- How much homework is there?
- How many hours will it take to graduate?
- Can I observe/shadow?

At Evergreen, we strive to supply you with a complete picture of what to expect. Our admission team is trained to walk you through each step of enrollment, and if you have additional questions, we encourage you to ask! You'll find our team is happy to provide extra guidance.

You should leave a school tour knowing or having the following answers:

- What makes the school unique

- When school begins, breaks and when terms end
- The potential for developing a strong connection with someone there
- What kind of jobs do students work given the school schedule
